

## KYAH WIGET ADULT LEARNING CENTER

### Letter from the Principal

September 2025

Dear Students,

Welcome to the UCEP and Discovery programs. On behalf of the Adult Education team, I am pleased to welcome 32 new adult learners to our Centre this year. Your commitment to furthering your education is admirable, and we look forward to a productive year of learning and growth.

At the Adult Education Centre, we develop the academic skills and workplace competencies needed for success in post-secondary programs and employment. We emphasize self-responsibility, accountability, resilience, and determination while providing wrap-around supports to help you progress and succeed. In return, we expect students to attend regularly and punctually, engage actively in class, prepare for lessons, and complete assignments on time.

You are not alone as the year begins. Our team of teachers, educational assistants, and support staff are dedicated professionals committed to supporting you in a safe, respectful environment where questions are welcomed and contributions are valued. Adult learning presents unique challenges; we encourage collaboration, mutual support, and perseverance. Please take advantage of our culturally responsive and land-based programming and the many on-site supports available, including counselling, occupational services, and after-school academic help.

Accept the challenge, take responsibility for your learning, and make this a year of growth and achievement. If you need assistance at any time, please reach out to any member of our team.

Thank you for coming back to school as an adult!

Sincerely,

Best of luck,
