

November 2023 Newsletter

Hello everyone. November is an exciting month because the students and staff who have not attended Transformations will attend from the 20th to the 24th. They will leave at 10:30 am and get lunch in Smithers. When they arrive in Prince George, they will go out for dinner and then go to Ness Lake Bible Camp to attend registration and find their beds. Tuesday, Wednesday, Thursday, and Friday they will be in workshops in a large group, small groups, and one-on-one. Those of us who have already attended Transformations are very excited and happy for you. If you have any questions or concerns, please bring it up now so that we can solve them and you can attend the program.

Contact North: Most of the class is registered for Contact North so that we can take online courses for Math and English. Others will be doing their math and English in class with staff.

If the new meat grinder arrives on time, we will be making hamburger out of some the moose meat from Helen Lake. We will do this on Friday, November 17th.

We will be selling moose meat and gravy with rice on November 2nd.

We will sell Shepherd's pie with jello on November 16th.

We will sell Spaghetti, Caesar salad, and garlic bread on November 30th.

On Thursday's half of the class will be going with Rob to visit his farm. We purchased a pig that we will raise and butcher. Dress warm on these days.

Attendance: Starting November 1st if you are more than 15 minutes late, you will be marked absent for half a day. This goes for the morning and the afternoon. Please make sure that you aren't wearing your ear buds while class is in session.

We will be slowly going through our space and cleaning different areas. Once we are done deep cleaning our whole space, we will clean each area once a week. We can discuss the schedule as a class. Either once a week we do everything, or we can clean on Monday, Tuesday, and Thursday and focus on one area like the kitchen, bathrooms, or classroom. I got this idea from the Wit'suwit'en Language class while we jarred moose meat there for two days. They don't have a janitor and everything is so clean. This helps foster ownership over our space.

Valerie Angus,

Coordinator of Nek'wilgi PEP
